# Training Certification Comparison

# Exemplify

Certifies a training provider's processes for the design, development, and delivery of a course.

No restriction on the type of course or industry served by that provider.

Robust certification requirements that align with ISO 29990.

# Training Course Certification (TCC)

Certifies a training provider's course and delivery of that course as developed against the TCC course requirements.

Courses provide auditors the knowledge and skills to perform as management system auditors.

Graduates receive a certificate of successful completion which may be used to achieve personnel certification.

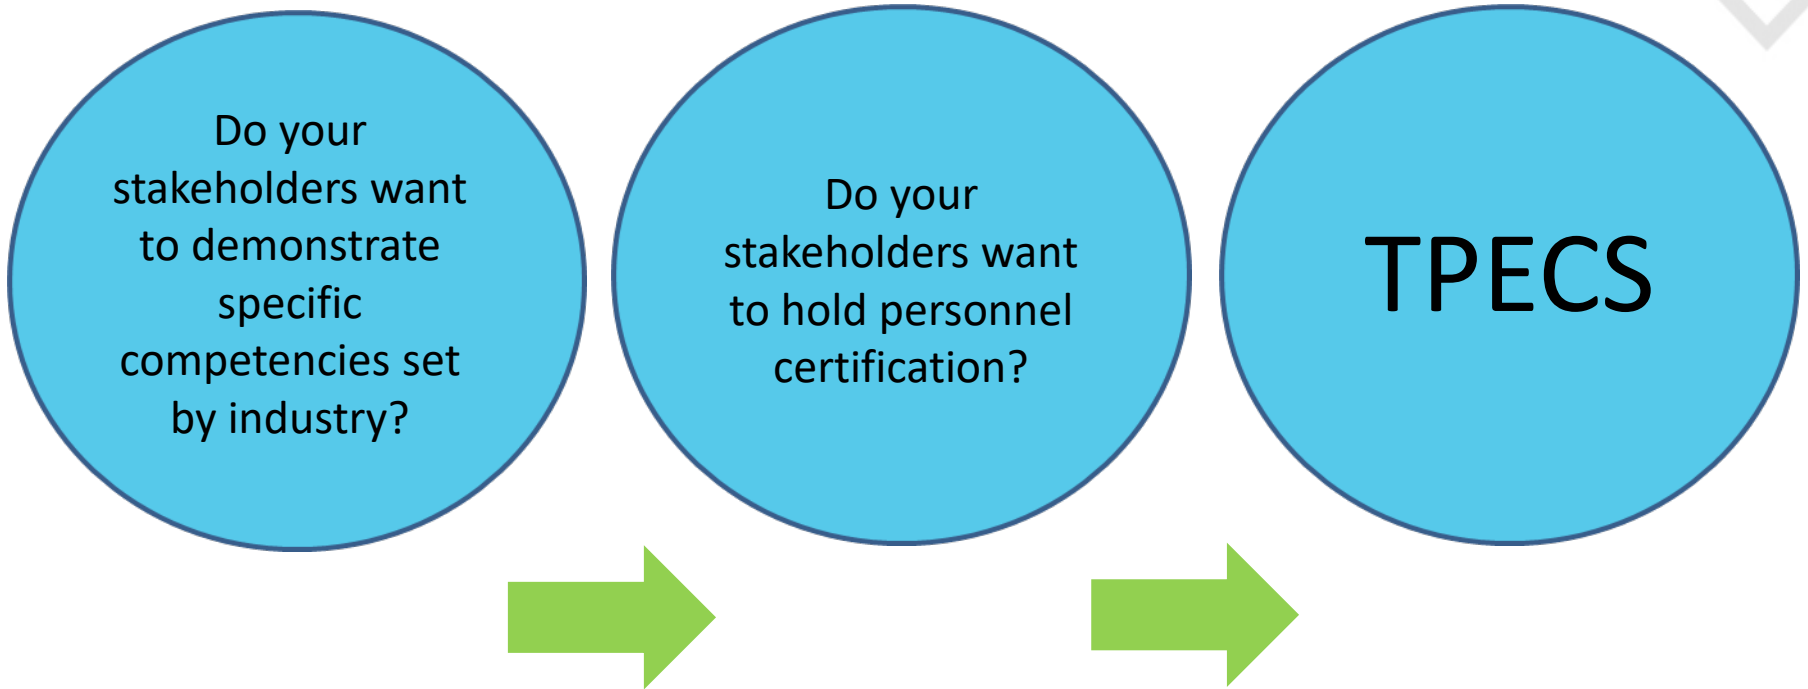

# Training Provider and Examiner Certification Scheme (TPECS)

Certifies a training provider's examination as developed for specific Exemplar Global Competency Units (CUs) and as assessed against the TPECS requirements.

Examinations provide a benchmark for professionals in a variety of industries to meet and demonstrate they possess the knowledge and skills necessary for personnel certification.

Graduates receive a certificate of attainment which can be used to achieve personnel certification.
