Take Your Business to the Next Level
With Exemplar Global

A Different Approach to Certification

To better serve the auditor and certification community, Exemplar Global has established a group certification program for certification bodies that includes a package of benefits designed to enhance your market presence and the professional development of your auditors.

The program aims to simplify and reduce cost of certification and offer additional benefits.

Benefits for the Certification Body

- All of your auditors independently certified by a reputable international personnel certification body
- Access to a range of self coaching assessments, which address behavior and soft skills, for your auditors
- Access to Exemplar Global collateral to enable you to promote your business and service offerings
- Access to a number of opportunities to enhance CPD
- Opportunities for input to webinars and virtual events
- One point of contact for managing auditor certification, development, and competence
- Opportunity to absorb or pass on the cost of certification
- Opportunity to participate in Exemplar Global’s technical advisory group
Benefits for Your Auditors

- Exemplar Global personnel certification to verify their skills and competence
- Individual reports that detail their strengths and provides self coaching recommendations
- Access to ongoing professional development—webinars, writing articles for The Auditor Online, etc.
- Access to Exemplar Global virtual events, which include the Online Auditor Expo and Food Safety Expo
- A much simpler and less expensive certification process

Our Behavioral Assessments include

Work Style Assessment: An objective way to learn about your unique personality traits as an auditor and how they manifest on the job.

Leadership Profile Assessment: A powerful coaching tool that individuals can use to evaluate their strengths and areas for improvement.

Conflict Management: Provides insight into individual conflict management style with direct reports, peers, and managers.

Business Reasoning: Measures an individual’s ability to interpret and solve business problems from a both verbal and numerical perspective.

English Proficiency: Measures an individual's ability to read and understand written English, use correct grammar, and typing ability.
